First Announcement for 2019 International Symposium of Young Scholars on Carbon Resources Conversion (YSCRC-2019)

The International Symposium of Young Scholars on Carbon Resources Conversion (YSCRC) was proposed by a group of professors in various kinds of close cooperation on chemical and thermal utilization of different carbon resources including but not limited to coal, biomass, petroleum, natural gas, CO₂, syngas, organic wastes, and others. The symposium was particularly designed to promote the international academic exchange and also research cooperation among the involving professors and their research groups, especially among the Young Scholars and graduate students from such research groups. It is planned to hold once in every year alternatively in a country of the professors attending the symposium. The 2019 YSCRC (YSCRC-2019) will be held on October 11th to 14th, 2019, in Shenyang University of Chemical Technology (SYUCT), Liaoning Province, China.

Important Date

Date of the Symposium: October 11th-14th, 2019

Abstract submission: September 15th, 2019

Symposium Place

Shenyang University of Chemical Technology, No. 11 Street, Shenyang Economic and Technological Development Zone, Liaoning Province, China. The symposium will be held in the compass of SYUCT, while the accommodation of attendees is in the Woda Garden Hotel mentioned later under “Accommodation Hotel”.

Academic Presentation

The symposium presentation will include Plenary report, Oral presentation and Poster, and all presentations will be in English. The involving professors, their staff and

students are sincerely invited to contribute presentations in any format. The presentation type will be determined after submission. **All presentations, in any kind, are required to submit a one-page abstract prepared according to the “Abstract template” shown after this announcement.**

Special Issue

A special issue in journal *Carbon Resources Conversion (CRC)* will be edited for the First International Symposium of Young Scholars on Carbon Resources Conversion (YSCRC-1). All presentations are invited to submit a manuscript to this special issue, but all submissions will undergo the normal review process of the journal.

Registration Fees

Each attendee: 1000 RMB, or 15,000 Japan Yen, or 150 US Dollars, No difference for students and professors. The fee covers costs for symposium documents, presentation, meals for two days of the symposium, and also laboratory / city visit.

Culture / Technical Visit

Culture or Technical visit other than laboratory visit inside the university will be arranged for the third day, but the cost will be separately collected from the individuals who will attend the culture or technical visit. Details about the culture or technical visit will be provided later, and cost is roughly 300-500 RMB per day depending on the distance of visiting location away from SYUCT where the YSCRC-1 will be held.
